

EXPOSE SERIES

Exposé E8T

New For 2003!

Mixing is always easy when you're listening to the truth. The E8 T's uncompromised design combines 2 fully complementary symmetric discrete power amplifiers with an active crossover, an inverted dome Tioxid tweeter and a special double-woven Kevlar woofer. Much more sophisticated than typical power amplifiers, the Exposé' E8T uses a "purist" amplifier design that would be perfectly at home in the finest esoteric hi-fi systems. Every aspect of the E8T has been engineered to deliver accurate, truthful audio; from the quality of the internal components to the shape of the cabinet.

"The search is over...I've found a pair of speakers that I'm completely happy with. In the past, I've had to settle for speakers that are flawed in some way...too lumpy in the bottom end...too brittle in the top. The Exposé's are in a league of their own. I actually thought I'd never find a set of speakers that I would truly be happy with, but these are it for me."

Mike Shipley - Engineer / Producer

E8T Technical Specifications

Shielding	Standard
Drivers	Tweeter: 1" Tioxid 5 Inverted Dome Woofer: 8" Polykevlar
Input Type	XLR (3-Pin) 10k Ohm Balanced Pin1 = Ground Pin2 = (+) High Pin3 = (-) Low
Controls	Input Sensitivity: +6dB to -30dB HF Cut: 0 to -1.5dB attenuation in 0.5db increments. Shelved @ Crossover
Amplification	HF: 120 Watts
Fusing	LF: 160 Watts 6.0A 100VAC 50Hz 6.0A 110-120VAC 50/60Hz 3.15A 220-240VAC 50/60Hz
Freq. Response	42Hz - 21kHz +/-1dB
Max SPL (Each)	Music: 110dB Peak: 113dB
Dimensions	17.5" H x 14-3/4" W x 14-1/2" D 44.45cm H x 37.47cm W x 36.83cm D
Shipping Weight (Each)	61 lbs (28 Kg)
